

A vibrant underwater scene featuring a grey shark swimming towards the left in the center. To the right, a diver in full gear is positioned, holding a camera on a stabilizer. The background is filled with diverse coral reefs and marine life, illuminated by natural light filtering from above, creating a rich blue and green color palette.

underwater cameras

FANTASTIC COLORFUL UNDERWATER PICTURES

SeaLife high definition cameras: All models can be used above and below water comfortably and deliver great images.

MICRO 2.0 - 32GB WIFI & 64GB - WIFI

MICRO HD 1.0 - 16GB

The MICRO HD range of cameras are permanently sealed and absolutely flood-proof. Easy to use, with nothing to maintain.

With rich, colourful still images, full 1080p HD video, instant focusing, and a built-in 130-degree Fisheye Lens, the Micro 2.0 has everything needed to capture and share your underwater encounters down to 60 meters.

The Micro 2.0 includes two shooting modes: time lapse shooting and upside-down shooting and is available in two capacities: 32GB with WiFi, or 64GB with WiFi, connecting wirelessly to smartphones and tablets with the SeaLife Micro Cam app.

DIGITAL SEA DRAGON FLASH

Reduces backscatter and produces bright, deep colors in underwater photos. Adjustable or Auto Mode brightness for optimal exposure. Underwater range: up to 2,5m. Includes snap-on diffuser, standard tray, grip and case. Not compatible with the MICRO range.

TECHNICAL CHARACTERISTICS

Guide Number	20m full power/1.5m low power
Coverage Angle	80° horizontal x 60° vertical [100° with included diffuser]
Color Temperature	5700 degrees Kelvin
Power Source	4 AA batteries [NiMH recommended]
Battery Life	150 flashes
Dimensions	509g [with batteries] & 12.7 x 11.4 x 6.4 cm

SEA DRAGON MINI 650

The compact and ergonomic Sea Dragon Mini 650 Flood provides 650 lumens across a wide 120-degree beam that is ideal for brightening your photo or video subject, or illuminating a large area on your dive. The Sea Dragon Mini 650 Spot has a concentrated 15-degree beam [10-degrees underwater] that is ideal for pointing out sea creatures and covering long distances to illuminate your dive.

The light features single button operation and is powered by two CR123 batteries [included] or an optional rechargeable lithium ion battery [Tenergy 18650 2600mAh 3.7v] delivering up to 100 minutes of burn time at full power. Depth tested to 100 meters. Dimensions : 189g [without batteries] & 4.1cm [diameter] x 15.9 cm.

SEA DRAGON MINI 600

new design

A powerful 600 lumen LED using the new CREE XM-L@ LED for multiple applications down to 100m, 75° wide beam angle, delivered with two CR123 lithium batteries giving 150 minutes burn time at 40% power and 60 minutes at 100% power, also compatible with 18650 Li 3.7v battery giving 250 minutes burn time at 40% power and 100 minutes at 100% power, easy on/off light head twist control, includes GoPro® camera mount, universal Y-S adapter and lanyard clip. The Mini 600 is now equipped with an over-pressure valve to release battery off-gassing.

Dimensions : 96.5g [without batteries] & 3.4cm [diameter] x 13.5 cm

FANTASTIC COLORS

100 POSSIBILITIES

Quickly and easily expand your camera set with **flex-connect** accessories - add grips, Flex Arms, trays and more with just a "click!" **flex-connect** allows you to transform your camera set from compact to full-featured in just seconds, providing a quick way to adjust to any diving environment. To assemble and disassemble just in seconds.

'Flex-Connect' is a range of Sealife Accessories. The trays, mounts and flex arms allow you to easily expand your camera set. Modular for travel and they quickly and easily lock into place.

Flex Arms extend lights with 100° of silent bending motion. Cold Shoe Mount and Micro Tray provide an incredibly compact set-up. Dual Tray enables you to connect multiple lights to your camera.

BEGIN BY CHOOSING YOUR TRAY

MICRO/DUAL TRAYS

Choose between two tray sizes and build your ideal system. For maximum illumination and stability.

flex-connect™

THEN ADD HANDLES AND ARMS....

TRAY HANDLE

The Flex-Connect Grip provides a comfortable grip and improved handling for your light, flash or underwater camera set.

FLEX ARM

The Flex Arm can be bent up to 100° and adds 7" of length, so you can aim the light exactly where you need it.

COLD SHOE MOUNT

Use the Cold Shoe Mount to mount a light directly to your camera for an ultra compact system. You can also use the GoPro® Adapter to mount a GoPro® directly above your camera in order to simultaneously capture underwater photos and video.

HANDLE

Use the Sea Dragon 1200 or 2000 lumen light as a handy dive light. Just click the light onto the Handle and you are ready to go. Of course, the Handle in combination with the GoPro® Adapter can also be used for the GoPro®, creating an extremely comfortable grip for comfortable GoPro® images.

BALL JOINT ADAPTER

The adapter connects Sea Dragon Lights and Flex-Connect accessories to any underwater camera using the 1"/25mm ball joint mounting system.

YS ADAPTER

The YS Adapter makes the SeaLife system compatible with any underwater light or flash using a YS mount.

GOPRO® ADAPTER

Easily and safely connect the GoPro® camera to Flex-Connect accessories.

MICRO HD ADAPTER

Adapter to connect your Micro HD to GoPro® accessories

YOUR VERSION

FISHEYE LENS

The fisheye lens has an effective focal length of 16mm and increases the field of vision of the DC1400 by 80%. This allows for incredible perspective shots under water.

WIDE ANGLE LENS

You want to fit everything into the shot and stay within the shooting range of your flash. The wide-angle lens takes a full-frame picture of a 5' shark within 5' shooting distance. Not compatible with DC1400 or MICRO range.

OBJECTIVE GRAND ANGLE MINI

A must-have lens for divers. Get closer to the subject and still fit everything in the picture. Not compatible with DC1400 or MICRO range.

AQUA POD

The 135cm Aqua Pod allows you to take photos and videos from creative perspectives and to take selfies, close-ups, and videos while maintaining enough distance between you and your subject. The Aqua Pod Mini extends to 95cm and is comfortably light.

GoPro® with Aqua Pod and Mini 600

10X CLOSE UP LENS

The 10x close-up lens allows you to get even closer to your subject.

L-ION BATTERIE

For SeaDragon Photo-Video lights.

BATTERIES & CHARGER

For SeaDragon Mini 650 & Mini 600
