QUICK GUIDE

# TRENDS 2017

## REGULATORS - A SERIES

### MK25 EVO CARBON BT/A700 CARBON BT

A lightweight yet virtually indestructible carbon fiber front cover plus a durable

Black Tech coating deliver excellent protection while offering superb breathing performance for technical diving and more.. DIN & INT.

#### Superb Breathing Performance:

Breathe more easily than ever, thanks to a sectional exhaust tee, large diaphragm, and air balanced valve.

**Sectional Exhaust Tee:** Operates in tandem with an oversized exhaust valve for easy exhalation.

**Large Diaphragm:** Increases breathing sensitivity to another level.

**Air Balanced Valve:** Smooths inhalation effort when diving at varying depths and supply pressures.

#### 1 - MK25 EVO/A700

This always-impressive system can be counted on for steady, effortless airflow and exceptional cold-water protection with its patented Extended Thermal Insulating System (XTIS) technology. DIN & INT.

#### 2 - MK17 EVO/A700

More compact yet delivering better performance than its predecessor, the MK17 EVO is perfectly paired with the A700. Built for demanding dive conditions, you can always be confident of your next breath.

### AIR2

This fifth-generation octo/inflator is both versatile and easy to use. As a backup regulator in high-stress situations, the AIR2 breathes like a dream, rivaling some second stage models. It is CE-certified for waters 10°C/50°F or warmer. The large, flexible purge button provides quick clearing when it counts. Divers can also enjoy pinpoint buoyancy control with the AIR2. Its large inflate and deflate buttons are easy to distinguish, and the device fits comfortably in hand.

For reliable performance without dangling hoses, the AIR2 is a standout.

# S620 Ti

new

The revolutionary new S620 Ti regulator touts a long list of features guaranteed to enhance a diver's underwater experience, offering improved work of breathing in a smaller, lighter package—37% better than the S600. Choose between the MK25 EVO T and the MK25 EVO first stages.

#### Enhanced Flow.

Hi-Flow mouthpiece and enlarged mouthpiece pipe, improve comfort and increases airflow. And the super-flow hose delivers more air on each breath..

#### Engineered Exhaust Tee.

The S620 Ti's new flow engineered exhaust tee does a great job of diverting bubbles while helping to substantially lower work of breathing.

#### Versatile and Adjustable.

Equipped with full user adjustments, including a new high-grip inhalation effort control knob and a VIVA switch.

#### Compact Size. Huge Performance.

The new compact size makes it more comfortable without sacrificing breathing performance.

#### Built to Last.

**S620 Ti:** The titanium barrel, reinforced technopolymer case and front cover, and stainless steel front frame let the S620 Ti withstand years of aggressive diving in any conditions.

#### MK25 EVO TI/S620 TI

Ultra-light, corrosion-resistant first stage is machined from a solid block of titanium—providing uncompromised quality.

#### Breathe Easier. Look Better.

Stainless steel components blend with sleek styling. Colorful mouthpieces and hose protectors let you match your regulator to the rest of your gear.

#### MK25 EVO TI/S620 TI

Ultra-light, corrosion-resistant first stage is machined from a solid block of titanium—providing uncompromised quality.

#### MK25 EVO/S620 TI

SCUBAPRO's premium high performance piston first stage and its new state-of-the-art second stage, designed with titanium components, create an incredibly reliable reg system.

#### MK17 EVO/S620 TI

Built to deliver a steady supply of air in harsh diving conditions, the MK17 EVO is completely sealed off from the elements, ensuring trouble-free operation no matter how cold or murky the water gets.

## REGULATORS - S SERIES

### 1 - MK25 EVO/S600

Flawless performance and ease of breathing are the essence of this system. The preferred combo of professionals or any diver embarking on long, deep dives that require ultra-high performing cold-water protection. DIN & INT.

### 2 - MK17 EVO/S600

Teaming SCUBAPRO's best-selling second stage with its environmentally sealed first stage creates a reliable air delivery system for all diving conditions. DIN & INT.

### MK21/S560

More than an excellent mid-range system. This combination offers high performance and value. Optimized thermal exchange thanks to external fins. Optional routing cap available. DIN & INT.

### MK17 EVO/S560

**new system**

Divers looking for a mid-range regulator will have a hard time finding a system that breathes as easy and is as reliable as the MK17 EVO/S560. Built to deliver a steady supply of air in harsh diving conditions, when the going gets tough, the MK17 EVO/S560 gets going. DIN & INT.

### MK11/S560

**new system**  
Designed for divers seeking impressive performance in an uncomplicated air-balanced delivery system. Lightweight and easy to use. Perfect for recreational divers and dive travelers in particular. DIN & INT.

All SCUBAPRO regulators feature our limited lifetime warranty.

**MK25 EVO/G260 BLACK TECH**

Aimed at technical divers, this system offers excellent resistance to freezing and effortless air delivery. A sleek Black Tech scratch-resistant DLC [Diamond Like Carbon] finish protects both first and second stages.  
DIN & INT.

**1 - MK25 EVO/G260**

Aimed at technical divers, this system can face any dive situation—including extreme cold-water conditions—with rock-solid performance and outstanding reliability.  
DIN & INT.

**2 - MK17 EVO/G260**

The ideal system for tech divers and cave explorers. The environmentally sealed first stage is designed for cold waters and less-than-pristine dive conditions.  
DIN & INT.

**REGULATORS - C & R SERIES****MK11/C350**

A first stage specially designed to reduce size and weight, plus SCUBAPRO's most compact second stage, make for an excellent travel regulator system. A smooth breathing and reliable midrange breather.  
DIN & INT.

**MK2 EVO/R195**

Featuring a totally evolved classic downstream piston first stage, this workhorse reg delivers impressive breathing sensitivity with steady airflow, plus offers excellent cold-water resistance.  
DIN & INT.

**R195 OCTOPUS**

Combines the features of the R195 with a high-visibility yellow cover and a 1 meter yellow hose for easy sharing.

# COMPARISON CHART

## REGULATOR COMBOS

### FIRST STAGE

**Air-Balanced Piston:**  
Ultra-fast breathing response  
regardless of pressure or depth.

**Balanced Diaphragm:**  
Keeps water out while delivering  
air promptly at all tank pressures.

**Classic Downstream Piston:**  
Reliable performance with  
minimal maintenance.

XTIS

Full Titanium Body

Dry Chamber

Low Pressure Ports [HFP\*]

High Pressure Ports

## M2 (MANTIS 2)

The M2 is a dive computer like no other. Developed using SCUBAPRO's Human Factor Diving™ approach to product design, the M2 offers everything you expect from the leader in diving equipment. Its stylish, brushed stainless steel casing is loaded with topside features and advanced underwater functions, including air integration and electronic navigation. But most importantly, the M2 incorporates cutting-edge biometrics that enable you to live your life in dive mode.

< STANDARD  
BLACK BAND  
SHOWN WITH  
OPTIONAL  
COLOR BANDS >

## MANTIS 1 (M1)

A precision blend of sophisticated computer and beautiful timepiece, the M1 is designed for divers who crave the cutting-edge technology of the M2 but don't need air integration or an on-board digital compass. Incorporating SCUBAPRO's Human Factor Diving™, the M1 provides detailed personalized data through the use of biometrics.

OPTIONAL COLOR BANDS FOR MANTIS 1

## MANTIS 1 BLACK

Black Tech version. PVD [Physical Vapor Deposition] scratch-resistant coating and a stealth finish.

## ALADIN SPORT (MATRIX) upgraded

Perfect for recreational divers who appreciate a dive computer with a variety of modern features that enable them to evolve in their sport, as well as for technical divers looking for multi-gas capability. Digital compass and Bluetooth® Low Energy technology compatible with LogTRAK for Android and iOS.

® Store & analyze dive logs via new  
BLUETOOTH® low energy wireless  
technology.

## ALADIN H (MATRIX) upgraded

A sharp-looking full-featured dive computer targeted to avid recreational divers looking for a convenient air-integrated DC. Algorithm calculates remaining bottom time [RBT] and estimates workload based on breathing rate.

## GALILEO SOL

The ultimate dive computer, Sol contains all core SCUBAPRO features in addition to all technology exclusive to the Galileo series. This state-of-the-art computer accounts for the effect of increased workload on human physiology with features like the integrated heart rate monitor which tailors decompression calculations to your dive.

## GALILEO LUNA

The Galileo Luna is everything you need for an extraordinary underwater experience.

The Luna contains all core SCUBAPRO technology and all features of the Sol except two, which can be added as optional upgrades later (heart rate monitor and Predictive Multi-Gas).

## CHROMIS

A loaded wrist computer, the Chromis is ready for your next adventure, in or out of the water.

Divers will enjoy the large, easy-to-read display and a host of features, including a full-featured dive computer, freediving and gauge modes, timepiece, and patented stroke counter. The Chromis has all the core SCUBAPRO features minus PMG.

Enjoy the Chromis in a color that celebrates your diving style. Choices include Black, White, Lime Green, Black/Gold, Full Black and Deep Blue.

## LED & SMART+ TRANSMITTER

Convenient and safe, a SCUBAPRO transmitter allows you to read tank pressure and true remaining bottom time (RBT) on the computer screen. It needs only to be paired once, the first time you use it. Coded transmission technology prevents interference between different dive computers. The latest LED version lets you know if your tank has gas without needing to activate the computer. Compatible with Galileo Sol, Galileo Luna and Mantis M2 personal dive computers.

## CORE FEATURES

FOR ALL SCUBAPRO DIVE COMPUTERS

**Micro-bubble:** Choosing a micro-bubble level between LO-L5 allows you to increase your safety by adapting to a particular environment. This feature allows divers to either take up less nitrogen or off-gas more quickly.

**Predictive Multi-Gas (PMG):** Lets you enjoy the full benefits of carrying high oxygen concentration mixes in addition to your main breathing gas. The computer calculates the decompression schedule for all possible gas combinations and adapts the calculation accordingly. [Not available on Chromis, optional on Luna]

**Continuous average depth reading:** Available in gauge mode and can be reset by the user anytime.

**Profile Dependent Intermediate Stops (PDIS):** Calculates an intermediate stop based on how much nitrogen uptake your body has endured, taking into account your current dive, previous dives, and breathing mixes.

**Enriched air (Nitrox):** 21%-100%. The ppO2 is adjustable between 1 and 1.6 bar.

**Gauge mode:** Turns off all warnings and alarms [except low battery alerts] and monitors depth, time, and temperature without decompression calculations.

**Logbook:** Records depth, temperature, and heart rate profiles after the dive and stores the most recent 100 hours of dive information at a 4-second sampling rate, which can be downloaded to a PC.

**Freediving mode:** A collection of features developed for freedivers, including a faster sampling rate, manual start, specialized alarms and warnings, adjustable water density, and specific logbook. Available as a free upgrade for Galileo Sol and Galileo Luna on SCUBAPRO.com. [Not available on the Aladin H]

**Altimeter:** Measures altitude and alerts the diver when approaching an altitude incompatible with saturation status after a recent dive.

**Bookmark:** Allows you to highlight specific moments with a simple button press.

**Active back light:** With push-on and push-off function.

**Replaceable battery:** By user or dealer.

## FRONT ADJUSTABLE BCS

### X-BLACK

The X-Black features the exclusive AirFlex system, highlighted by the red bungees, that simplifies buoyancy control and guarantees high stability. With rigid backed weight pockets, redesigned dump valves, and updated BPI and elbow. One of our most feature-rich BCs, the X-Black is also one of the most comfortable, even when fully inflated, thanks to its ergonomic cut.

### X-FORCE

X-Force features our pre-formed, wrap-around bladder providing higher buoyancy without squeezing when fully inflated. This design offers superior fit and weight distribution. X-Force is more than a powerhouse of features, making it the preferred choice of passionate and advanced recreational divers. With rigid-backed weight pockets, redesigned dump valves, and updated BPI and elbow.

### X-ONE

The X-One is an ideal choice for divers looking for a simple and feature-rich BC. Integrated front weight pockets are separate, giving you the option to upgrade later. Either way, you get a high-performing, stable and comfortable BC.

## STABILIZING

### MASTER

The Master Jacket has been certified as a Combined Buoyancy and Rescue Device thanks to its lift capacity and the "face-up" body position at the surface. It is the stabilizing jacket choice of commercial, military, instructors, and advanced divers needing intensive use, precise buoyancy control, and comfort.

**EQUALIZER**

new

The Equalizer brings together all the best features you could ever want in a recreational diving BC. Its high performance wraparound bladder is lightweight, durable, and extremely comfortable. In reliability and performance, this BC has no equal.

**BELLA**

upgraded

Specifically designed and meticulously tailored for the female diver.

This high-end, front-adjustable jacket has every detail, including a SCUBAPRO-exclusive wraparound air bladder that retains its cradle-like shape even when fully inflated.

The Bella will allow you to experience the most comfortable diving ever.

**EQUATOR**

upgraded

The Equator is extremely comfortable and fully adjustable. It comes with an integrated weight system and a wide range of great features. Its compact and lightweight design makes it an ideal front-adjustable BC for diving at home or elsewhere.

**GO**

travel friendly

Go dive the world with this true travel BC. Lightweight, easy-to- pack and extremely comfortable, it includes an integrated weight system, new optional trim pouches and a bevy of other original features, as well as SCUBAPRO quality, style, and spirit of adventure.

The large size weighs only 2,6 kg.

## BACK FLOTATION

AVAILABLE COLORS

OPTIONAL COLOR KITS

### HYDROS PRO new

A true breakthrough in design, dive comfort and convenience, our premiere back flotation BC, made with moldable Monprene®, is built for anyone who loves to dive.

The HYDROS PRO is the most feature-rich, the most customizable and the most comfortable BC ever. Its 2-BCs-in-1 design makes it the perfect BC for any destination and any dive. In Men and Womens sizes.

TRAV-TEK STRAPS AND BACK PACK INCLUDED

### SEAHAWK

The Seahawk is a dynamic, comfortable back flotation jacket. It allows excellent freedom of movement, while still providing adequate storage with traditional cargo pockets.

### LITEHAWK upgraded

The Litehawk is the travel version in our back flotation family. With a soft, flexible pack instead of a rigid backpack, it is exceptionally light and rolls to pack tightly. Incorporates many of the great features of our back flotation BCs in a high-performing, lightweight BC. Size XS/S weighs just 2.6 kg.

## SIDEMOUNT

This easy-to-wear addition is compatible with the current X-TEK line and features a soft Ainet backpack, bungees and hooks for tank support and streamlining, making sidemount diving more convenient and comfortable. Includes stainless steel grommets, D-rings, handles, and valves.

## SIDEMOUNT REGULATOR KIT

Offering effortless air delivery and outstanding reliability, this is the go-to air delivery system for cold water or technical diving.

## DRY SUITS

### EVERTEC LT

Lightweight, durable and offering a bit of stretch, this high-quality drysuit is made of heavy-duty Rip-stop fabric and comes with a long list of features to keep you warm, dry and comfortable in all water conditions. Included: suspenders, LP hose and a bag for storage or transport. Comes with hood.

### EXTENDER

Built to last, the Extender is constructed of a high quality and extremely durable trilaminate material to withstand the rigors of years of aggressive diving. Though built tough, the suit is lightweight and offers a number of design features that enable you to achieve a comfortable, streamlined fit.  
Includes hood, inflator hose and storage bag.

### EVERDRY 4

Enjoy the fit and flexibility of a wetsuit with the thermal properties and watertight seals of a drysuit. The high-density 4mm neoprene resists compression so little to no undergarments are required. Built for extended-wear comfort and convenience, the suit includes a hood, inflator hose and bag for storage or transport.

### EXODRY

Offering a unique approach to drysuit diving, the Exodry fuses 4mm high-density neoprene with latex wrist and neck seals. It's a winning combination, resulting in minimal buoyancy variations, maximum range of motion and an excellent sealing system.  
Includes attached rubber boots, hood, LP hose and storage bag.

**NOVA SCOTIA 7.5MM** upgraded

This new design incorporates 7.5mm neoprene in the chest, torso and upper thigh regions to maximize thermal protection, and 6.5mm neoprene in the arms and lower legs to enhance comfort and range of motion. A new plush interior liner is featured in the arms, legs and shoulder areas to increase warmth and stretch, and the new YKK Aquaseal Vislon waterproof rear zipper is super flexible while totally blocking water entry. 100 percent Everflex neoprene, an X-Foam formulation for better health, and is assembled using eco-friendly solvent-free Aqua glue. CE certified a Class A dive suit - rated for water temperatures ranging from 7°C to 12°C. Delivered with hood.

**SPORT SEMI-DRY 7MM**

Cold-water divers looking for a comfortable, high-stretch wetsuit need look no further. Made from super-soft neoprene, the suit features an attached hood and a triathlon cut for lots of range of motion in the shoulder and arm areas. It's must have thermal protection for first-time suit buyers.

**SPORT 5MM**

Ideal for new divers, Sport suits are more comfortable and provide much more freedom of movement than other wetsuits. Made from ultra-pliable neoprene, steamers are built with the Pure Design Concept, using fewer seams and panels, and feature a triathlon cut.

## SUITS

### EVERFLEX

These ultra warm and comfortable steamers are built with 100% Everflex neoprene and incorporate SCUBAPRO's exclusive Pure Design Concept using fewer panels and seams, allowing maximum stretch for extreme freedom. All 2017 Everflex steamers come with a Diamond Span water-draining inside lining that features a second lining for improved stretch and cold-water protection. Suits are also assembled using a new and innovative solvent-free water-based glue, a major step towards a truly green wetsuit. 7/5mm, 5/4mm and 3/2mm thicknesses.

White model for women in 3/2 mm.

**SCUBAPRO cares**

**Our unique Blue Diamond Span:** inner lining with water draining material isn't just exceptionally comfortable and quick drying. It enhances cold water protection, keeping you warmer, longer.

**X-Foam:** Made from limestone neoprene, petroleum-free, and compliant with strict PAH requirements. SCUBAPRO was the first to offer this, better protecting divers and our oceans.

**Solvent-Free Glue:** The first to use AQUA glue—a solvent-free, water-based adhesive that is environmentally and diver-friendly. **AQUA**

White Everflex in 3/2 mm.

5mm - Women // Red

5 mm - Men // Black White

### DEFINITION

User-friendly wetsuits use a 3D cut and special tailoring to fit the body like a glove, provide extra stretch where needed, and enhance warmth and comfort. Accent colors vary on suits based on thickness. Available in thicknesses 6.5mm, 5 mm and 3 mm. 6mm jacket and 2.5mm shorries also available in men's and women's sizes.

6.5mm - Men // Blue

6.5mm - Women // Purple

3mm - Men // Yellow

3mm - Women // Pink

## PYROFLEX

Leave it to SCUBAPRO to deliver unparalleled advantages in one versatile suit.

Available as a 1.5mm steamer, Pyroflex is perfect for diving, snorkeling, or pool training. Use as a layering option to stay warmer, longer and get more out of your other SCUBAPRO suits.

## PROFILE 0.5MM

This ultra thin neoprene steamer can be used as a warm-water wetsuit or as a base layer beneath a thicker wetsuit for cold-water diving. Built with a quality nylon/neoprene blend on the outside for durability.

## EVERFLEX SKIN

This comfortable suit offers excellent thermal and UV protection for tropical diving and snorkeling, and is an effective under layer when worn with a wetsuit.

## HYBRID 6MM

This versatile vest is designed to look great with all our suit families. Removable hood with durable zipper.

## HYBRID SHORTY 2MM

Make a fashion statement in and out of the water. This unique one-piece suit is perfect for warm-water snorkeling or other water sports.

## VAST OFFERING OF BOOTS & GLOVES

Multiple thicknesses and styles and other neoprene accessories for maximum comfort and protection.

See scubapro.com

A	7°C - 12°C
B	10°C - 18°C
C	16°C - 24°C
D	> 22°C

## SEAWING NOVA GORILLA

A slightly stiffer blade results in increased power and control for divers who prefer more feedback in their kicks. It also allows for more effective sculling and reverse kicking, making the Gorilla an excellent choice for tech divers and dive instructors.

## SEAWING NOVA

The multiple-award-winning Seawing Nova delivers the power, acceleration and maneuverability of a blade fin, with the kicking comfort, speed and efficiency of a split fin. You'll be hard-pressed to find a fin more comfortable to wear or fun to kick.

## TWIN JET

You won't find a better provider of maximum propulsion with minimum kicking effort than the Twin Jet. This fin is just fun.

## TWIN JET MAX

This high performance fin features a slightly stiffer blade for split fin divers who like more feedback in their kicks.

## JET FIN

SCUBAPRO Jet Fins have a long and celebrated history of performance. They set the standard for power and durability in 1965 and continue to be immensely popular today. With Spring strap.

**JET SPORT**

\*new color

The Jet Sport generates propulsive kicking power with excellent stability. It's easy to maneuver too, delivering the perfect blend of performance, comfort and price.

**WAKE**

\*new color

Offering dual-material construction and a traditional blade, this fin is lightweight, comfortable and perfect for travel.

**GO**

new

 This brand new travel fin combines the fitment benefits of an open heel fin, with the comfort and barefoot freedom of a full foot fin. The GO is lightweight yet virtually indestructible, plus it's a fast and nimble performer in the water. It's also designed to fit easily in IATA carryon compliant luggage, making it the ideal fin for divers, snorkelers and swimmers who enjoy traveling the world.

**FLUIDA 2**

Timeless classic design full foot fin. Excellent thrust due to the streamlined shape.

**JET CLUB**

new

This full foot version offers the ease of temperate water fins combined with the performance found in adjustable fins.

## MASKS

### SYNERGY TWIN TRUFIT

\*new color

2nd generation Trufit technology uses two thicknesses of supple silicone to create a comfortable, watertight seal.

### SPECTRA

A metallic-look frame, dual lens mask.  
Exclusive paint process gives your mask the look of stylish eyewear.  
Corrective lens available.

### SPECTRA MINI

The Spectra Mini shares the same features as the twin lens Spectra mask, but is smaller in size.

### SCOUT

A sporty, low-volume mask for easy clearing and extremely comfortable fit. The perfect mask for any face.

### VIBE 2

Double lens mask with increased field of vision. Includes EZ-Mask strap for central adjustment and an additional standard mask strap.

### ECCO

\*new color

Low volume, easy to clear, and a liquid silicone skirt that's both comfortable and seals water out.

\*

### PRO EAR 2000

Offering a sensational concept for ear protection while diving, the ProEar mask comes with ear cups to keep your ears dry while at the same time allowing for easy equalizing during descents.

**FRAMELESS**

Diving's original frameless mask features a distinctive rectangular shape for excellent field of view. The skirt's soft double-edge seal keeps water out and feels good against the skin. Gorilla features a larger skirt.

FRAMELESS GORILLA

FRAMELESS

**SYNERGY2 TRUFIT**

The single lens Synergy 2's new-generation Trufit two-skirt design delivers a long-lasting, comfortable seal on virtually all face shapes.

**CRYSTAL VU**

A single lens mask with seamless side windows for a panoramic field of vision.

**SOLO**

Enjoy the view in a streamlined, low-volume frameless mask. Double-sealed silicone skirt molds to the face for a comfortable, watertight seal.

**DEVIL**

Offering excellent field of vision and a super-soft silicone skirt, the design of the nose pocket makes it easy to equalize.

**1-Piece Suit:**  
in both 5/4mm and 3/2mm with 3D diagonal cut back zipper.

HOOD  
5/4MM

**MONOFIN**

Constructed of same materials as S2.

**SNORKEL****S1 PRO**

Highest quality, 99-percent pure carbon blade, produces the most powerful and efficient fin on the market.

**S2 ECO**

Built with a carbon layer over a fiberglass core, the S2 delivers kicking performance comparable to the S1, but at a value price.

**S3**

Long, soft blade made of a high performance plastic compound. Durable and affordable. Great option for scuba divers too.

**NOSE CLIP****SURFACE BUOY****FREEDIVING BEACH BAG****STEEL PRO**

Frameless, single lens design offers an expansive, low volume view.

**STEEL COMP**

Ultra-low internal volume. Not recommended for scuba diving.

**REBEL 6.5MM & 2.5MM**

Back-zip steamer delivers warmth, flexibility and a comfy plush interior.

**REBEL 5MM****REBEL SHORTY 2MM****REBEL 5MM**

Velcro closures make it simple to put on and off.

**REBEL 3MM**

Super stretch, plush neoprene, Large gusseted Velcro® flap.

**SUPER SOCK****RASHIE**

Shorts and tops sold separately.

**SNORKEL PLUS FINS**

Open heel design can be used barefoot or with booties.

\*new color

**CHILD 2 MASKS**

Perfectly shaped to fit small faces.

**CHILD 2**

\*new color

**SPIDER COMBO**

Children's snorkeling set.

## LIGHTS

### NOVA 2100 SF (SPOT FLOOD)

new

The powerful new Nova 2100 SF [Spot Flood] multi-use dive light offers both a 65° wide beam and a 15° spot beam to perfectly match different diving situations. Five light modes plus an emergency signal mode provide lots of versatility, with one-button control for easy operation. Extremely reliable, the waterproof battery compartment is isolated so even if the O-ring seal fails, water cannot reach the internal electronics. The Nova 2100 SF comes as a set with both a large and a small a Goodman handle, plus a pistol grip handle and a GoPro adapter. Or, it can also be purchased without handles if you want to use it with a video arm system. Both lights come with a wrist lanyard, rechargeable battery, charger and spare parts, all packed in a zippered EVA carry case.

### NOVA 720/720R

Newest Cree XPL LED. 100% or 50% power modes. Choose from full-sized 720 [23.2cm long, 3 C cells], or compact 720R [15cm long, rechargeable Li-ion]. Batteries sold separately.

### NOVA 220

Just 9.5 cm long, it can be stored in the smallest BC pocket. Three power modes: 100%, 25% and Strobe. Batteries sold separately.

### NOVA 720 WIDE

Same 720 lumen illumination and features, with Cree XML U2 LED and wider 80-degree beam. Batteries sold separately.

# SCUBAPRO

## ABOUT SCUBAPRO

SCUBAPRO is the iconic mark of the world's most accomplished scuba divers, the preferred and recommended choice of elite diving professionals around the globe.

Originators and innovators of exceptional dive gear, we build flawless diving equipment for the lifestyle and sport of those whose passion is found below the surface.

Created by divers for divers, we've built a strong legacy of innovation and intuitive diver-centric design for more than 50 years.

Driven by a shared passion for the sport, we are inspired to create equipment that puts the experience at the forefront.

We believe that exacting commitment to performance, usability, safety, and design sophistication brings out the best in every underwater adventure.

For divers who want the best, there is no other choice.

Today, SCUBAPRO remains a premier manufacturer of scuba diving equipment and employs over 400 people in 17 locations spread over 13 countries, covering 4 continents.

At least 1 in every 2 employees is a diver and in several countries over 80% are divers, and over a third are instructors.

SCUBAPRO and UWATEC are Johnson Outdoors companies.
