

Sun protection with style

Scubapro's T-Flex rash guard is manufactured from a stretchy but tough-wearing nylon / spandex material. Available in men's and women's sizes and in long or short-sleeved versions, the latter provided the ideal under-layer for use with my semi-dry suit. In between dives with the suit stripped to the waist it dried very rapidly and prevented wind chill while also protecting my sun-sensitive skin thanks to its UPF 80 UV rating. **NH**

Scubapro UPF 80 T-Flex Rash Guard

Company: Scubapro

Price: £44

SCUBA says

Form-fitting, good looking and with UV protection, the T-Flex is ideal as a base-layer beneath a wetsuit, for snorkelling at the surface or just for wearing at the beach.
