WE STRONGLY BELIEVE IN OUR
RESPONSIBILITY TO PROTECT
THE ENVIRONMENTS
WE LOVE TO EXPLORE.

FOR DIVERS. FOR OUR OCEANS. FOR THE FUTURE OF OUR PLANET.

For over 50 years, SCUBAPRO has been committed to the sport of diving and to the protection of the world's oceans that provide us all with so much of our enjoyment, exploration and adventure.

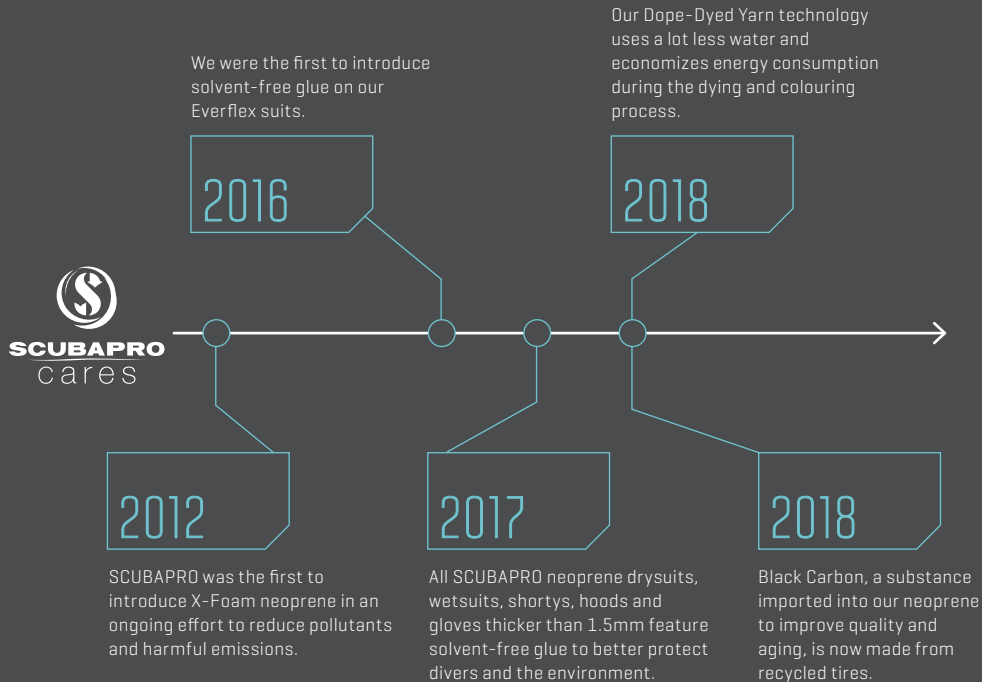

From our environmentally-responsible products, materials and manufacturing techniques to sponsoring the conservation efforts of numerous organizations and our Deep Elite Ambassadors work, no dive company does more to protect the environments we all love to explore.

WHAT DOES THAT MEAN?

- Creating sustainable products.
- Expanding responsibility packaging.
- Building an ocean ethos.
- Living our values.

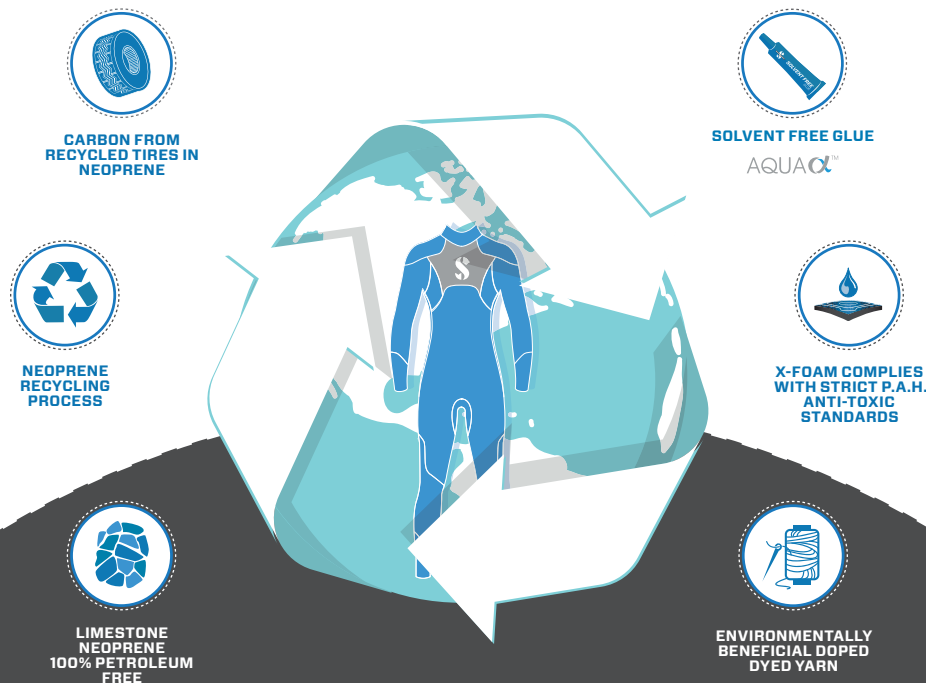

SUSTAINABLE PRODUCTS

SCUBAPRO DIVE WEAR IS THE GREENEST – OR RATHER BLUEST – IN THE INDUSTRY.

UP TO **2.049 KG* OF CO²** IS REDUCED PER WETSUIT

Since 2018 all SCUBAPRO neoprene suits, hoods and gloves with a thickness of 1.5mm or more are manufactured to the following standards:

USE OF REUSABLE MESH BAGS
100% RECYCLED CARTON BOXES AND PAPER
REDUCTION OF PLASTIC PACKAGING

16 TONS
OF PLASTIC
EVERY YEAR

Through our efforts we have saved more than **16 tonnes of plastic a year**. That's the **same weight as 12 VW Golf's!** We are continuously working to **protect our environment!**

REUSABLE BOXES

NO PLASTIC PACKAGING FOR SPARE PARTS
NO PRINTED MANUALS

RESPONSIBLE PACKAGING

- All of our regulators, instruments and dive computers are already packaged in recycled carton boxes. We are continuously working on replacing all plastic boxes with fabric cases, similar to the MK25 EVO/S620 Ti packaging.
- Working diligently over the past few years, we have removed much of the plastic packaging from our line of accessories. We've already started to remove all plastic packaging from spare parts as well. Our goal is to reach 100% as soon as possible.
- Most of our masks come in a reusable box that can be used for transport and storage and is also handy for holding small items you need for diving (retractor, spare parts or Sea Drops).
- Plastic boot bags have been replaced with fabric bags, which can be reused for transport and storage. Similar packaging for dive socks, gloves and hoods will follow in 2019.
- Some of our fins are already available in reusable mesh bags. For all our fins we are already planning a new packaging made from recycled paper. Similar, "intelligent" packaging for further products will be implemented the near future.

BUILDING AN OCEAN ETHOS

SCUBAPRO believes in working together to take on the biggest issues facing our oceans, while encouraging every diver to be conservation-minded.

For over 50 years, we have partnered with organizations that share these ideals, including

Mission Blue, Galapagos National Parks, Conservation International, WWF, Antinea Foundation, San Diego Oceans Foundation, REEF, the National Marine Life Center, Sharkproject, Yaqu Pacha, SOS Seaturtles, Reefcalendar, among others.

LIVING OUR VALUES

SCUBAPRO is staffed by avid divers who recognize a personal responsibility to preserve and protect the very thing that our products allow divers to explore. Renowned marine biologist and preservationist Dr. Sylvia Earle sat on our board for many years, while SCUBAPRO's president is on the Advisory Board of the National Oceanic and Atmospheric Administration (NOAA) Marine Sanctuaries.

SCUBAPRO employees are active volunteers, and our regional offices regularly lead beach cleanups and donation drives. And because we believe more divers lead to more ocean advocates, we contribute to causes that create new divers, from underprivileged children to veterans.

'Across the globe, Mission Blue relies on SCUBAPRO equipment to carry out expeditions that shine light on the beauty – and fragility – of the ocean. Many thanks to the team at SCUBAPRO for keeping us safe and joining us in our mission to protect the blue heart of the planet.'

DR. SYLVIA EARLE, MISSION BLUE

OUR DEEP ELITE

We are proud to introduce the Deep Elite: our loyal brand ambassadors. Each has a unique story to tell, but they are united in their passion for the oceans, diving and our gear. Some have been diving in SCUBAPRO for decades, others for years, but they all have conservation, an appreciation for our products, and a commitment to the diving community in common.

We are thrilled to call them part of the SCUBAPRO family - because deep down, they are the best.
